BY POLICE AT CALLAO.

Inquiry here confirms the story com-
ing from Lima to the effect that the
State Department has lodged a de-
mand with the United States charge
of legation at Lima for the release of
the mate of the American bark "Uncle
John." He was ashore on December
19 last at Callao, and was arrested be-
cause of his constant demand for "Rain-
ier Beer." On tap or in bottles at the
Criterion Saloon.

Deafness in School Children.

The fact that myopia is frequent
among school children is well known.
It is not so well known that impaired
hearing is also frequently met with.
The children thus affected are often ac-
cused of being lazy and inattentive,
when in reality their ears are at fault.
Holt shows that these cases are quite
common, are easily recognized, are gen-
erally curable and when cured a large
number of children are transformed, so
to speak, both from a physical and a
moral standpoint. According to Holt
of Stuttgart, the proportion of school
children with impaired hearing is 35
per cent; according to Moore of Bor-
deaux, 17 per cent. Holt agrees with
Gale and other aurists that the propor-
tion is 25 per cent, or one fourth. All
the children in a class should be care-
fully examined, and these semidull pu-
pils will always be found among the
poor scholars. The cause of infirmity
is to be sought for—nasopharyngeal
catarrh following measles, scarlatina,
whooping cough, adenoid vegetations,
hypertrophied tonsils, etc.—and normal
conditions are to be restored by ap-
propriate treatment. — Popular Science

Humbert's Generosity.

King Humbert's generosity in chari-
table works is said to be fabulous. A
petition hardly ever remains without
an answer. His majesty spontaneously
gives presents to those persons to whom
he does not wish to grant subsidies.
These presents are generally of two
kinds—a golden clock with the royal
arms or a brooch set in diamonds. His
jeweler supplies him each year with
500 clocks and 1,000 brooches. King
Humbert never goes to the theater save
on the occasion of an official ceremony.
He says that he finds no pleasure in
artificial life.

"I play a part every day," he says.
"in the political and official career."
What can the other comedians teach
me? — Rome Letter.

Origin of a Name.

The origin of the name Fife is not
known. One historian tries to show
that it comes from the Celtic word
veach, a Plot, and means that the dis-
trict was inhabited by Picts, but that is
obviously absurd, as Fife was not spe-
cially the home of any of the Pictish
tribes. The tradition that finds great
favor is related by a monk, who
states that the first known possessor of
the district which has since grown into
the kingdom of Fife was one Fife
Duffus, a famous chieftain whose date
is lost in the mists of antiquity.

The Queen's Messengers.

The four queen's messengers always
travel incognito. They wear their
badges of office out of sight, suspended
round their necks, and are always most
reluctant to display them to emphasize
their authority and the importance of
their mission. The badge is a small,
exquisitely modeled silver greyhound.

Suspy Seeds.

The seed vessels of wild peas and beans,
when dry, open and curl up with a sudden
snap which expels the seeds sometimes to
a distance of 12 to 20 feet. Indications of
this habit are seen in the cultivated varie-
ties, the seed pods of which often curl with
a snap when opened.
